Application for Special Exception Use Permit for the following use: Lot Coverage
To install concrete walkway and patio in rear of property

Application for Appeal of an Administrative decision: N/A

By: N/A Date: N/A

For the following reasons: N/A

Application for relief other than above: Lot Coverage

State reasons for this request: _____

Due to the topography of the area, when there is heavy rainfall or consistent rains, a large volume of displaced runoff , travels down Birch Ave onto F ST. With our property located on the lower side of F St the property contends with excessive water. This leaves the back of the property muddy or icy, making it unsafe to utilize the parking in the rear of the property or to access the property. In addition the current residents of the property are senior citizens one of which has had both hips replaced. Due to the lack of mobility and the unsafe conditions he has already had several slips and falls. To resolve the issue we would like to install a concrete walkway and patio area.

Has a previous application for this property been filed with the Town? Yes No

If yes, Petition # N/A

VARIANCE HARDSHIP WORKSHEETTown of Elsmere Petition Number: 19-09Property Owners Name: Andrea ParrishPerson(s) Representing the Property Owner: Jordan Teich Additional page(s) attached**Applicants, please be aware that the following are the prerequisites to the granting of a variance:**

A variance may be granted when it will not be contrary to the public interest where, owing (due) to special conditions, a literal enforcement of the provisions of the Code of The Town of Elsmere will result in unnecessary and undue hardship.

The term "undue hardship" has a specific legal definition in this context and essentially means that without the requested variance, the applicant will have no reasonable use of the subject property under existing development regulations.

Personal medical reasons shall not be considered as grounds for establishing undue hardship sufficient to qualify an applicant for a variance.

Economic reasons may be considered only in instances where a landowner cannot yield a reasonable use and/or reasonable return under the existing land development regulations. You have the right to consult a private attorney for assistance.

In order to recommend the approval of or authorize any variance from the terms of the code, the Planning Commission or Board of Adjustment must find all of the following factors to exist:

- (1) That special conditions and circumstances exist which are not applicable to other lands, structures or buildings in the applicable zoning classification.

Please explain how this applies:

Due to the topography of the are, when there is heavy rainfall or consistent rains, A large volume of displaced runoff , travels down Birch Ave on to F ST. With our property located on the lower side of F St the property contends with excessive water. This leaves the back of the property muddy or icy, making it unsafe to utilize the parking in the rear of the property or to access the property.

- (2) That the special conditions and circumstances do not result from the actions of the applicant.

Please explain how this applies:

The conditions are due to weather and the topography of the surrounding area

- (3) That granting the variance requested will not confer on the applicant any special privilege that is denied by the provisions of the code to other lands, buildings or structures in the identical zoning classification.

Please explain how this applies:

The majority of the surrounding properties already have hard surface walkways to accommodate safe access to their dwellings. The variance will grant this property equal privilege of the surrounding properties

- (4) That literal enforcement of the provisions of the code would deprive the applicant of rights commonly enjoyed by other properties in the identical zoning classification under the provisions of the code and will constitute unnecessary and undue hardship on the applicant.

Please explain how this applies:

The majority of the surrounding properties already have hard surface walkways to accommodate safe access to their dwellings. The enforcement of code deprives us the ability to utilize and safely access our property. A current resident of this property has physical challenges due to hips replaced and has already sustained several falls due to the conditions

- (5) That the variance granted is the minimum variance that will make possible the reasonable use of the land, building or structure:

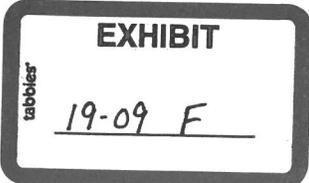

Please explain how this applies:

Our request is for a concrete walkway for direct walking access and a patio for an even and consistent area for seating and ease of movement at the rear entrances. The majority of the surrounding properties already have hard surface walkways and patios to accommodate safe access to their dwellings. We are requesting no more then the surrounding properties already have.

- (6) That the granting of the variance will be in harmony with the general intent and purpose of the code and that such use variance will not be injurious to the area involved or otherwise detrimental to the public welfare.

Please explain how this applies:

The alterations are commonly found at the surrounding residential properties and will be harmonies with the area. The variance will permit us to use the property in a safe manner and allow other resident to safely access the property if needed

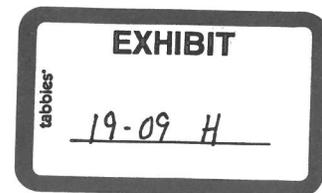

I understand that all of the above conditions apply to the consideration of a variance and that each of these conditions have been discussed with me by the below-signed Code Enforcement Department representative. I am fully aware that it is solely my responsibility to prove that my petition meets all of the aforementioned criteria.

STATEMENT OF FACT

The subject parcel is legal non-conforming in regard to lot coverage. The Code of the Town of Elsmere allows 30% lot coverage for interior townhomes in the R-2 zoning district, the lot is currently 38% covered.

REQUEST BY THE APPLICANT

To add 318 square feet of additional impervious lot coverage.

ISSUE(S)

1. Town of Elsmere Code Attachment 225-3 only allows interior townhomes to have 30% lot coverage, the applicant seeks 57% total lot coverage.
2. Town of Elsmere Code 225-31C prohibits the expansion of a non-conforming use.
3. The Town of Elsmere NPDES Permit requires that the Town of Elsmere reduce impervious lot coverage within the Town.

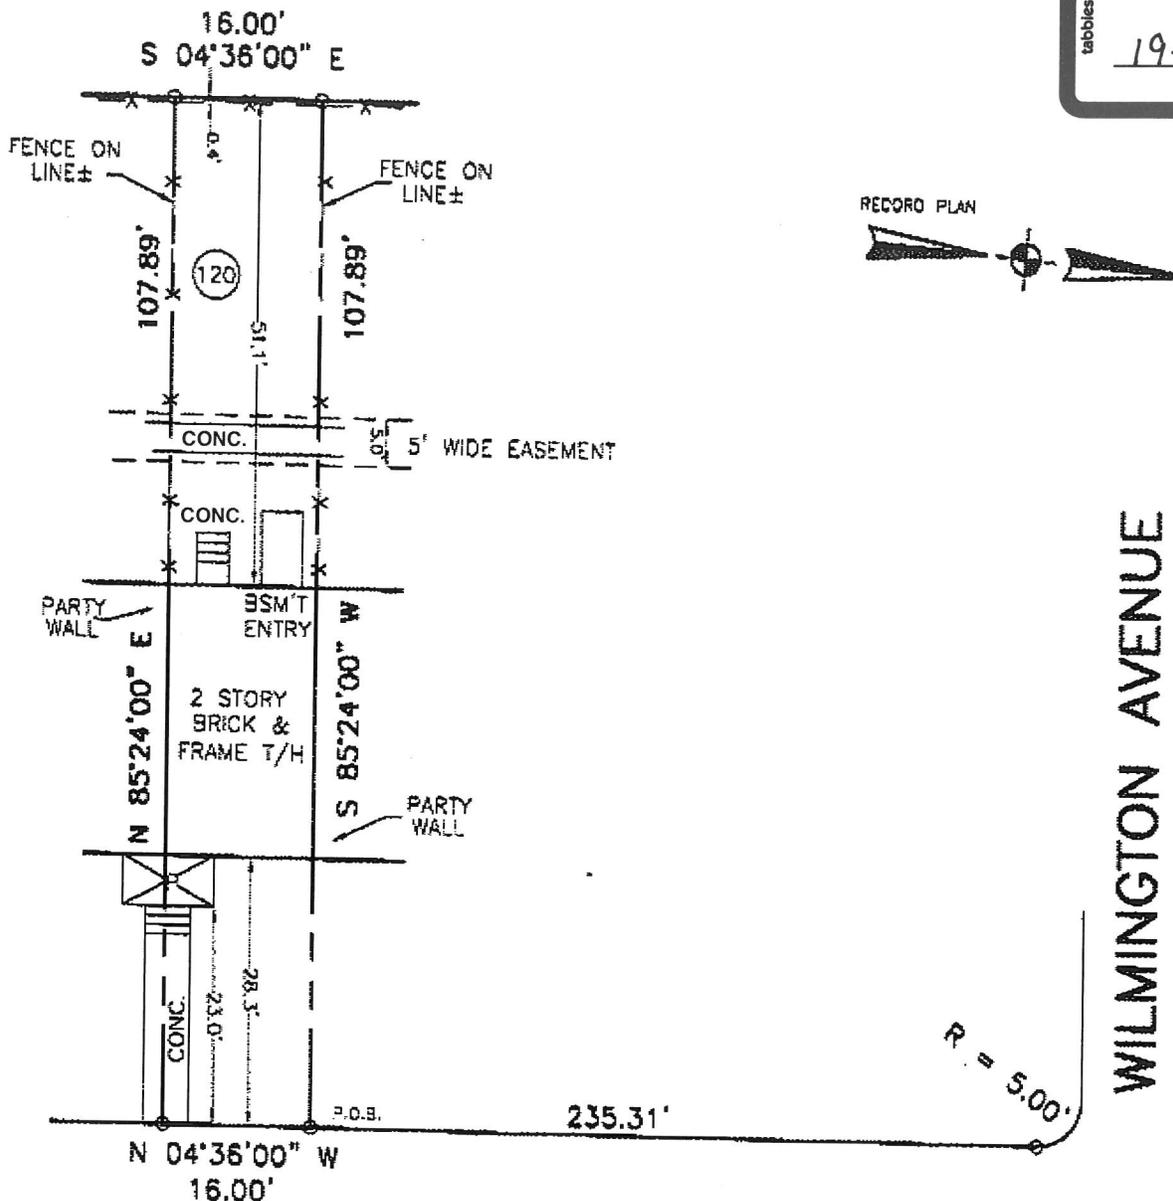

GRANTING OF THE PETITION

Should the Planning Commission of the Town of Elsmere grant Petition 19-09, the following must occur:

1. The Planning Commission of the Town of Elsmere shall determine that the proposed lot coverage meets the intent of the Town's NPDES Permit.
2. The Board of Adjustment shall grant a variance from the Town of Elsmere Code Attachment 225C to allow a variance from the maximum required lot coverage from 30% to 57%.
3. The Board of Adjustment shall determine that said petition approval does not facilitate the expansion of a non-conforming use as per Town of Elsmere Code 225-31C.
4. The applicant shall be instructed to obtain permits for said work from the Town of Elsmere Code Enforcement Department within 1 year of this approval.
